

Welcome, Digital Pioneer

You are not bad at technology. You just never had a community that believed in you.

A note from Prof. McKinney

You signed up. That already puts you ahead of most people who mean to start and never do. This course is built for adults 50+ who want to use technology — not to impress anyone, but to stay connected, stay independent, and stay competitive. We go at your pace. No jargon. No judgment. Just real skills that make real life easier.

What You Did in Lesson 1

STEP 1 OF 3

Make Your Screen Easy to Read

You adjusted your font size and zoom so every lesson is comfortable to read.

Phone/Tablet: Settings → Display → Font Size → slide up

Computer: Hold Ctrl (or Cmd on Mac) and press + to zoom in

STEP 2 OF 3

Pick the Goal That Matters Most to You

You chose your personal goal — the reason you are here. Your lessons will connect back to what matters to you.

Stay Connected to Family · Health & Independence · Work & Income · Learn Something New

STEP 3 OF 3

You Are Ready

You completed your first lesson. That is not a small thing. Most people sign up and never start. You did. You are already a Digital Pioneer.
